

What makes this tournament unique is that it is not a team event. It's anglers vs. the fish and other anglers. How is this different from a team event?

- 1) You need to land your own fish since you won't have a partner to net it for you.
- 2) You make all the decisions on what spots to fish, how long to fish that spot and when it is time to move on to a new spot.
- 3) You can't blame your partner if your day doesn't turn out as planned.
- 4) You get to keep all the prize money.
